Seminar Themes

Staying focused on the public's agenda
Making the case for public and political support
Working together from the inside out
Deciding what good things not to do

SIX goals of House Bill 1 –

- A seamless, integrated system of postsecondary education strategically planned and adequately funded to enhance economic development and quality of life.
- A major comprehensive research institution ranked nationally in the top 20 public universities at the University of Kentucky.
- A premier, nationally recognized metropolitan research university at the University of Louisville.
- Regional universities, with at least one nationally recognized program of distinction working cooperatively with other postsecondary institutions.
- A comprehensive community and technical college system.
- An efficient, responsive, and coordinated system of autonomous institutions that delivers educational services to citizens in quantities and of a quality that is comparable to the national average.

FIVE questions to gauge our progress –

- Are more Kentuckians ready for postsecondary education?
- Are more students enrolling?
- Are more students advancing through the system?
- Are we preparing Kentuckians for life and work?
- Are Kentucky's communities and economy benefiting?
